The chart displays the daily count of COVID-19 cases for five consecutive years. The x-axis, labeled 'Day of Month', ranges from 0 to 31. The y-axis represents the number of cases, with a scale from 0 to 100. The legend identifies the years: 2020 (blue), 2021 (orange), 2022 (green), 2023 (red), and 2024 (purple). The data shows a clear upward trend in the number of cases over the years, with 2024 reaching the highest peak of approximately 100 cases around day 25. 2023 also shows a significant peak of about 80 cases around day 25. 2022 and 2021 show lower peaks of approximately 60 and 50 cases respectively. 2020 shows the lowest number of cases, peaking around 20 in late March.

Day of Month	2020	2021	2022	2023	2024
1	10	15	25	40	85
5	15	20	30	35	90
10	18	25	35	30	95
15	20	30	40	45	100
20	22	35	50	75	100
25	25	40	60	80	100
30	28	45	50	85	100

A series of 12 horizontal bars of varying lengths and patterns, representing a scale or measurement. The bars are arranged vertically, with the longest bar at the top and the shortest at the bottom. The patterns include solid black, white with black outlines, and dotted black.
